

YOUR TOTAL SOLUTIONS CARE PLAN

The All-on-4. Teeth that stay in, one clear plan.

Four implants anchor a full row of fixed teeth you never take out. Here are the six steps, in plain English, so you know exactly what happens and who looks after you.

One clinic, one team

Onsite lab

Sedation available

AT A GLANCE

What All-on-4 gives you

- ✓ A full row of teeth fixed to four implants. No adhesive, no slipping, nothing to take out.
- ✓ Often no bone grafting, even after years of tooth loss.
- ✓ Eat, talk and smile with teeth that work like your own.

Consultation, surgery, onsite lab and follow-ups, all at 2530 St Joseph Blvd with one team.

SIX STEPS

Here's exactly what happens, in order.

You are part of every decision. Nothing moves forward until you're happy.

1

Discover your perfect solution WITH TOM AND HIS TEAM

Your consultation. We sit down, listen to what you've been through, look at what's going on, and talk through your options honestly. No pressure, no sales pitch.

2

Explore your sedation and implant options WITH DR. SILVER

Meet your implant dentist. Together you'll go over your sedation choices, so you can be as relaxed or as fully asleep as you'd like, and exactly how and where your implants will be placed.

3

Build your dream smile together WITH TOM

You're part of the design and fabrication. Bring photos of smiles you love, your own from years ago or ones you admire. Tom designs your teeth with you, and you see the results before anything is final.

4

Choose your path: Teeth-in-a-Day or Conventional YOU DECIDE

Both paths end with the same strong, permanent teeth. The difference is what you wear while your implants heal.

OPTION A · TEETH-IN-A-DAY

Walk out with teeth that don't come out.

Your implants are placed and a temporary row of teeth is fastened to them in the same appointment, same day. You leave with fixed teeth while everything heals.

Same appointment · Same day

OPTION B · CONVENTIONAL

Heal first, then your permanent teeth.

Wear a denture for about four months while the implants fully integrate and heal. Then we make your perfect row of teeth that do not come out.

About 4 months healing

5

Your final teeth

Once your gums have settled and the implants have completely healed, your strong, finalized row of teeth is installed. Adjustments can still be made before they're completed, so you're totally satisfied.

6

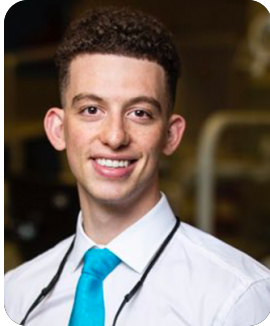

Follow-up, maintenance and patient care

We do the work of setting up your regular hygiene visits and doctor visits, so your implants and teeth stay healthy, happy and clean, and last as long as possible.

MEET YOUR DREAM TEAM

Two specialists. One building. One plan for you.

Your implant dentist places the implants and your dentist designs the teeth, side by side, so nothing gets lost between offices.

YOUR IMPLANT SPECIALIST

Dr. Maxwell Silver

DDS (Honours)

University of Toronto Faculty of Dentistry
Renew Implant Centre, Orléans

IV Moderate Sedation Certified

Cone Beam CT (3D X-ray) Certified

Implants · Grafting · Full Mouth Rehabilitation

Dr. Max Silver is an Ottawa native who graduated with honours from the University of Toronto Faculty of Dentistry, then completed a General Practice Residency at the University of Alberta and Stollery Children's hospitals in Edmonton. There he gained experience with medically complex patients, trauma, full mouth rehabilitation and smile makeovers, wisdom tooth surgery, implants, grafting and root canals. He is certified to provide IV moderate sedation and cone beam CT (3D X-rays).

Implants and extractions can be stressful. Dr. Max's expertise and IV sedation certification minimize anxiety throughout treatment, and he works with each patient to tailor a plan to their unique needs and goals. Outside of dentistry, he is a professional voice actor who has worked with Rogers, Disney and People's Jewellery, and he puts his impression and puppeteering talents to use for patients who need a little Elmo or Mickey Mouse to ease their fears. He is excited to bring empathy, laughter, and maybe even a little Elmo, to Renew Implant Centre.

YOUR SMILE DESIGN TEETH SPECIALIST

Tom Szarski

Denturist | Owner

Orléans Denture Clinic and Renew Implant Centre
National Capital Region

A.J. McGuire Award

Board of Directors, Denturist Association of Ontario

Four generations in dentistry

Tom Szarski is an award-winning Denturist who owns and operates the Orléans Denture Clinic in the National Capital Region. He graduated from George Brown College in 2003 at the top of his class, receiving the A.J. McGuire Award.

Tom and his family have practiced in the dental industry for four generations, and he has served on the Denturist Association of Ontario Board of Directors since 2017. Tom and his wife Charlotte live in Ottawa and, whenever they're not working, they love to enjoy the outdoors.

“Talk about life changing! Tom and his team changed my life. I can eat anything I want, no more pain, and never see that look in people's eyes when they see your teeth. Thank you for a truly life changing experience!”

Ken Miller, Ottawa, ON · Renew Implant Centre patient

YOUR NEXT STEP

You've waited long enough. The rest of your life won't.

Book your free, no-obligation consultation. We'll talk about what's going on, what's possible, and whether All-on-4 is right for you.
